Profile

I am a dedicated and skilled web developer with hands-on experience in building responsive web applications using React, Tailwind CSS, and JavaScript. I specialize in front-end design and development, and I am also familiar with back-end technologies, including Node.js and MongoDB. I'm currently seeking an opportunity to contribute to innovative web projects as part of a collaborative team.

Education

Islamia Government College, Sirajganj

BA in English Literature (2024 – Present)

Skills

Frontend : HTML5, CSS3, JavaScript, React.js, TailwindCSS

Backend : Node.js, Express.js, MongoDB
